

To whom it may concern:

I have been made aware of the NAB's petition 04-160 against XM Satellite Radio.

As a subscriber to the service I feel that it is an attack on me and all the paying members of the system. We own XM as much as that company does being we pay for the service.

The NAB people don't have more can they give the type of Weather & Traffic reports that we in the Over the Road Trucking Industrie needs.

I have avoided major traffic jams by knowing 200 hundred miles ahead in Houston what was going on there and the reports are more in line with what we need and we don't have to hunt for some local station that has some junk on the air that we have to wait a 1/2 hour or an hour of talk about local junk of no interest to us.

If you pass this Petition I as a end user of XM will start a collection campaign to get a law suit against all the member stations of the NAB and the FCC.

Thank You

Edward F. Peters
